

9.76% Women Sources *in* 1,080 News

The info-graphics empirically depicts the status of female presence in major nine broadsheets of Nepal. Data to this effect is generated by a year long monitoring of media contents on women especially, female bylines, women as news sources and issues relating to women. It is the new dimension of media monitoring carried out by Freedom Forum.

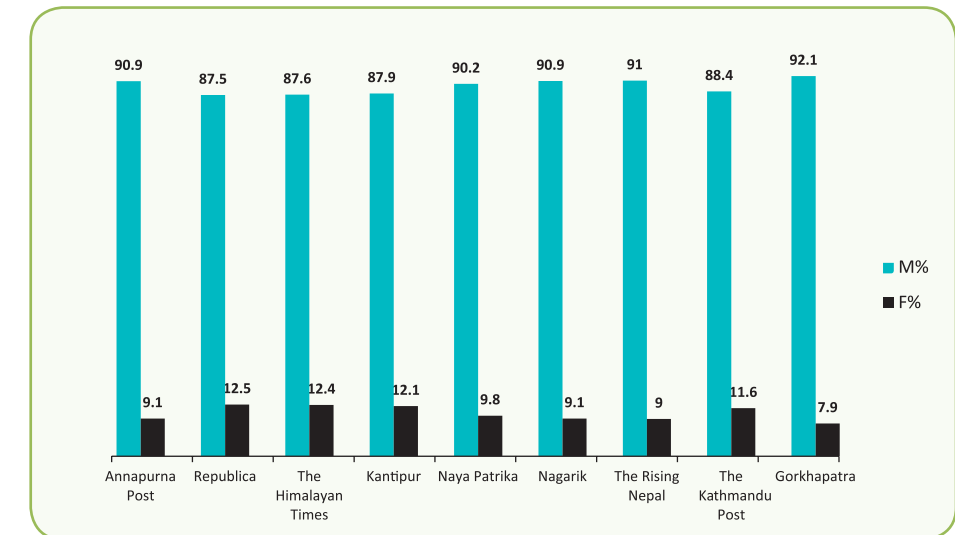

Topicwise Female bylines (October-December 2017)
